Note/Comment:

Some International Institutions (such as World Bank, IMF, etc.) as well as Foreign Government Institutions (such as Trade, Language or Cultural Institutions etc.) do offer their employees semi-diplomatic status. Please note that those Institutions usually are NOT able to obtain a diplomatic accreditation through the Office of Foreign Missions. Hence, the shipment of these type of clientele cannot be cleared as diplomatic cargo/shipment, as their respective administration will NOT be able to obtain the so-called DS Form 1504. Prior dispatching or consigning shipment, please ensure with your clientele the exact status of their employment with such Institution! Most likely their shipment must be imported under the US Customs Form 3299, which is used for any 'Corporate or Private Clientele shipment.

Thank you for your cooperation and we do look forward to be of service to you and your client!
